The ocean is not a fish factory, so not every fish looks the same, but we promise that, while the shape, size or number of pieces on your plate may change, the portion size (raw weight) stays the same. And you will always get the best value, healthy options, and most sensational seafood around. Take note that our grilled fish will take about 25 minutes to prepare. Sorry, we don't accept payment by cheques and all prices include service charge, all legal taxes. Images are for visual reference only. Size, shape & number of pieces may vary. All seafood comes from a frozen state unless otherwise indicated.
